Empowering Your E-invoicing Compliance Journey

Stay Ahead of the mandate. Stay Fully Compliant.

cleartax

Are You Ready for the Qatar Mandate?

Qatar is moving to mandatory e-invoicing under the General Tax Authority (GTA). Clearance before delivery. Structured XML only. Invoices, debit notes, and credit notes all in scope.

- B2B and B2G invoices cleared by GTA before they reach your customer. Uncleared invoices are not legally valid.
- B2C invoices reported to GTA within 24 to 48 hours of issue
- UBL 2.1 XML with QR code. A PDF on its own does not count.

Qatar e-Invoicing Mandate: Key Implementation Timelines

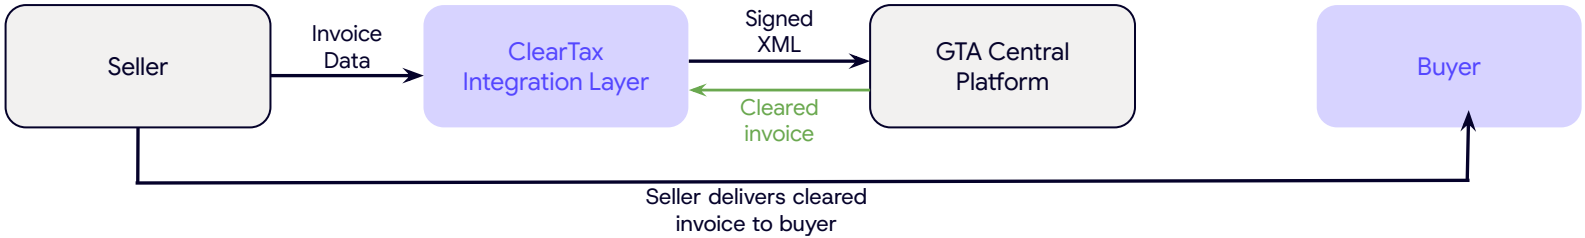

- **May 2026: Cabinet Approval**
  Draft e-invoicing law and executive regulations approved.
- **H2 2026: Pilot Expansion**
  Pilot widens. GTA SDKs available in Java and .NET.
- **Jan 2027: Wave 1 Live**
  Mandate goes live for large enterprises.
- **From mid-2027: Subsequent Waves**
  Further waves follow 6 to 12 months after Wave 1.

Specifications are still being finalised by GTA.

Qatar e-Invoicing: Clearance & Reporting Model

Clearance Model — B2B / B2G

Reporting Model — B2C

Seller issues and delivers to Buyer first · Then reports to GTA asynchronously · GTA does not transmit to Buyer

cleartax

Qatar e-Invoicing: Key Requirements You Must Comply With

Transmission Model

Clearance for B2B/B2G — GTA validates before delivery.
Reporting for B2C — seller delivers first, reports to GTA within 24–48 hours.

Applicability

All sellers issuing invoices for commercial purposes or for a fee. Large enterprises go live January 2027.

Documents covered

Electronic Invoice, Electronic Debit Note, and Electronic Credit Note

Penalties

Uncleared invoices not legally valid. Late submissions escalate to audit. Chain or format failures cause rejection

Acceptable Formats

UBL 2.1 XML mandatory. PDFs invalid unless paired with compliant XML and QR code.

Specs are still being finalized
